Description:

- This lot contains a Semi Trailer Mounted Water Treatment Roll Press Unit.
 - This unit was used by the city water treatment facility to separate the liquids and solids during their water recycling process.
 - The unit was used up until recently.
 - The city started building a new treatment facility and this unit was disconnected and relocated out of the way. After the construction of the new facility they will no longer need this unit.
 - Facility manager stated the unit was fully functional and that only the air compressor was removed from the unit.

- It comes with the power cable to power the unit and the scaffolding/ walkway that is erected around the trailer to make it easily accessible for employees and operators.
- Personal Inspections are highly recommended.

DISCLAIMER:

- If you are the winning bidder and will need assistance with loading your item, please give Dallas Ryan a **72 hour notice after the auction is completed** to schedule a time that works for both parties.

Quantity: 1
