Product Description:

- This lot contains a 1982 Chevrolet NUWA Class C Motorhome.
- The motorhome appeared to be in mostly usable condition but it will require repairs in the future.
- The motorhome runs and drives but it does have a vacuum leak around the carburetor that makes it difficult for the the engine to stay idling (see videos).
- The roof of the motorhome has been recently resealed.
- The exterior of the motorhome does have some damage on all sides and holes on the drivers side (see pictures).
- The functionality of the plumbing was not tested at the time of consignment.
- The front tires are weathered and will need to be replaced in the future.
- The generator will need some carburetor repairs, it has to be started with a starting fluid assistance initially but then it will start again on its own.
- Personal inspections are Highly Recommended.
